Use this Mail-In Rebate Form to Save \$50 on ENERGY STAR Qualified Clothes Washers and Refrigerators.

Have old or broken appliances? Recycle them!

The average refrigerator that's 10 years or older contains more than 120 pounds of recyclable steel. By recycling one such refrigerator, you save enough energy to run a new ENERGY STAR qualified refrigerator for 8 months.*

For details on responsible appliance recycling, go to **BGESmartEnergy.com**.

Get energized about energy efficiency!

The BGE Smart Energy Savers ProgramSM offers a variety of services and incentives to help you conserve energy, manage costs, and help the environment. Take advantage of:

- **Lighting Discounts:** Get discounts on qualifying ENERGY STAR compact fluorescent light (CFL) bulbs.
- **Quick Home Energy Check-up:** Customers can now sign up for low-cost home check-ups that show how to reduce energy use and save money.

Learn more at **BGESmartEnergy.com** or by calling **877.685.SESP (7377)**.

These programs are in support of the EmPOWER Maryland Act.

Get more, save more with BGE's Mail-In Rebate for ENERGY STAR Qualified Clothes Washers and Refrigerators.

When you choose an ENERGY STAR qualified refrigerator or clothes washer, you'll enjoy more than just the energy savings and outstanding performance—you'll get \$50 back with our Mail-In Rebate through the BGE Smart Energy Savers ProgramSM.

\$50 is just the beginning...

An ENERGY STAR qualified refrigerator can save you more than \$112 in energy costs over its lifetime compared to a new standard model.*

In most households, the refrigerator is the single biggest energy-consuming kitchen appliance. However, improvements such as high-efficiency compressors, enhanced insulation, and more precise temperature and defrost mechanisms all increase energy efficiency.

Save load after load! An ENERGY STAR clothes washer can save up to \$550 in energy and water over its lifespan.*

The average American family washes almost 400 loads of laundry each year. That's why it's a good thing families can cut their related energy costs by more than a third—and water costs by more than half—just by purchasing a clothes washer with the ENERGY STAR label. These washers also extract more water during spin cycles to reduce drying time, save more energy, and reduce wear and tear on fabrics.

Cut your energy costs by learning more about the BGE Smart Energy Savers ProgramSM at BGESmartEnergy.com or call 877.685.SESP (7377).
